SYSTEM ACCESSORIES

SEP

Probes

Hand held probe with attached cable, intensity control, on/off, polarity reverse switches and two 1.5mm jacks for electrode attachment and stainless steel tips for EP/EMG stimulation.

Description	Part No.
EP (12')	201305
EP (20')	201315
EMG (12')	201310
EMG (20')	201320

EP/EMG

Patient Cable

4 channel cable for SE series - 1.5mm connector. Available in two lengths: 12' or 20'.

12" — 305011

20" — 305111

Current Limiter

An SEP probe cable which limits the maximum output current to 2 milliamps.

303303

SEP Switchbox

Allows for connection to multiple patient sites using a single probe with a switch to enable desired stimulation sites. (1.5mm connection)

202305
